3D squirrel

Color, cut, fold and build

Cut outer edges — — — — Fold GLUE = hidden tab

1. Color first. Cut around the whole net; keep the tabs.
2. Fold every dashed line. Glue the side tab to make a box.
3. Fold the small flaps in. Close and glue the top and base.
4. Add the extra pieces using their matching tab labels.

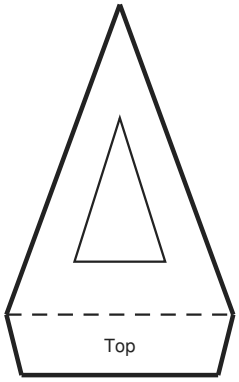

Color first. A grown-up can help with scissors and folds.

3D squirrel

Extra pieces to bring your model to life

Cut outer edges — — — — Fold GLUE = hidden tab

1. Color and cut out these pieces. Keep their tabs.
2. Fold each tab, then glue it to the named part of the body.
3. Let the glue dry before playing with your paper friend.

Color first. A grown-up can help with scissors and folds.
